

...uncommon travel experiences for students

Dear Student Coordinator:

Imagine a powerful program that challenges students, cultivates their leadership skills, and exposes them to life-changing relationships and experiences. TWO WHEEL VIEW is exactly that. This bicycle-based program for high school students (ages 14+) allows them to foster cross-cultural understanding, connect with the natural environment, and actively participate in an uncommon international travel experience.

I founded TWO WHEEL VIEW in 2000—after a 2-year, around-the-world, bicycle expedition—to share the extraordinary places that I discovered on roads less travelled. Our organization offers a grass-roots approach to international travel that allows students to take part in daily trip planning, engage with local communities, and raise their level of environmental and social awareness. Participants gain strength, confidence, and international perspective as they create memories that will last a lifetime.

TWO WHEEL VIEW welcomes students from a variety of backgrounds and experiences. Participants simply need to be physically active, able to ride a bicycle, and open to outdoor adventure. Trip itineraries, dates, cost and registration materials are available at www.twowheelview.org. TWO WHEEL VIEW is committed to creating opportunities for all students. Financial assistance is available.

No bike? No gortex? No problem. We don't just manage travel arrangements, we also look after bicycles, touring equipment, camping gear, activities, accommodation and meals. And, of course, safety is our top priority. Our trip leaders are experienced in international travel, youth development, and adventure-based education. Our staff are first aid and CPR certified, and have comprehensive Emergency Response Plans specific to our travel destinations. This year's bicycle expeditions include Argentina's northwestern provinces of Salta and Tucuman and the Arctic Circle region of Norway. Students may apply on their own or as part of a larger school group (eight youth comprise a group).

For additional information, trip details and application forms, go to www.twowheelview.org. If you know youth that might be interested in participating, please call or email. It would be my pleasure to walk you through the steps necessary to make this exciting opportunity a reality. Together we can bring an exceptional and uncommon travel experiences to students in your area. *I can't wait to hear from you!*

Sincerely,

Rick McFerrin
